

Naseer Ahmed

Frontend Engineer

I am a highly skilled front-end developer with 4 years of experience in the software industry. I specialize in developing responsive websites using React.js with TypeScript. I have extensive experience in UI implementation and integration, and am committed to delivering high-quality code that meets project requirements.

WORK EXPERIENCE

Frontend Developer Kwanso

03/2022 - Present

Tasks

- Develop responsive and performant front-end code using React.js, TypeScript, Material UI 5, and Styled Components, based on UI/UX designs, to ensure a high-quality user experience.
- Collaborate with back-end developers to integrate the front-end with API using Apollo GraphQL, ensuring seamless functionality and performance.
- Write clear, concise, and well-documented code, and participate in code reviews and testing to ensure the highest levels of quality and reliability.
- Optimize code and processes to improve performance, reduce page load times, and enhance user experience.

UI Engineer Nextbridge Ltd

08/2021 - 03/2022

Achievements/Tasks

- Translate UI/UX designs into high-quality code using React.js and Tailwind CSS, ensuring that the code was responsive, efficient, and easy to maintain.
- Collaborate with designers, project managers, and back-end developers to implement front-end solutions that met project requirements and user needs.
- Contribute to the development of reusable components and libraries, which reduced development time and improved code quality.

Frontend Developer Codility Solutions

06/2019 - 08/2021
